Profile

As a third-year Technical Computer Science student with a passion for coding, I am seeking to apply my skills in a professional setting. Through academic and personal projects, I have gained hands-on experience in developing applications with various web technologies. My goal is to pursue a career as a software developer, utilizing my problem-solving abilities and technical knowledge to create impactful solutions.

Employment history

Teaching Assistant, University of Twente

Sep 2023 - Present

As a Teaching Assistant, I assist students by clarifying course content, offering guidance on assignments, and evaluating their work. Other responsibilities include grading tests and reviewing student submissions. I have also worked as a mentor, overseeing specific groups and guiding them through their projects by providing support, answering questions, and offering feedback on their work.

Stock clerk, Albert Heijn

Dec 2019 - July 2023

As a Stock Clerk, my main responsibility was restocking shelves. I also handled incoming shipments and sorted them.

Education

Master Technical Computer Science, University of Twente

September 2025 - Present

I am currently in my first year of the Master Computer Science. In this master's program, I am specializing in Software Technology and Formal Methods.

Bachelor Technical Computer Science, University of Twente

September 2022 - Juli 2025

Throughout my bachelor studies, I have built a solid foundation in important areas, including algorithms, data structures, requirements engineering, OOP and REST API development. I graduated Cum Laude with an average grade of 8.5.
